

June 1, 2016 Board Update

Consumer Equitability

CE Staff

Our Inspector III in Elko has retired and we plan to interview and hire by September. Mike Gower is in the process of hiring seasonals (one for each location) through August. Jerome Plant (W&M Inspector II) in Las Vegas continues training for Metrology and has finished one of three National Institute of Standards and Technology training, with one class delayed until March 2017.

Metrology

Revenue is in line with expectations.

Weights & Measures

With an increase in medical marijuana businesses, inspectors will keep tight schedules. Director Barbee has secured three metric kits to help alleviate back log.

Petroleum

NAC changes

Future plans

In process of formulating fee increases

- 1) Inventory – put replacement cost and service life to all equipment.
- 2) Ten year average replacement cost, base increase upon that factoring in inflation.
- 3) Propose fee increase that will stabilize reserve for next ten years.
